TO Whom It May Concern,

David Payne Constructions is a Dubbo based company that has been in business for 22years, employs a staff of forty and contracts commercial and cottage buildings in projects up to twenty million.

McNaught Group completes approximately eighty five percent of our work. Besides the high quality of painting work that we require on our contractions we frequently require specialists services for rendering, texture coats, epoxy floors, decorative features etc. Tony most efficiently provides all the specialist skills that we require in these areas.

Tony is prompt in providing us with competitive quotes in all our work from disc provided. Questions are asked for clarification when required and we view this as important. The contract is completed on time, as per quotation, and to a high standard. Any necessary follow up work is done immediately. As Tony employs a large team of painters, thirty to forty, it greatly assists in keeping our projects on time. We find Tony does what he says he is going to do and when he says it will be done.

Tony is extremely professional and courteous at all times. Telephone messages are always answered. McNaught Group is an organised and strong business team working to a high standard. Tony keeps researching and applying the latest painting techniques. We would highly recommend his business to anyone. His interpersonal skills are one of the highest standards and make him well respected in the Western area of NSW.

Yours faithfully,

DAVID PAYNE
DIRECTOR
